

Culture Media For The Petroleum Industry

Our culture media is manufactured according to recommendations and formulations put forth by the National Association of Corrosion Engineers (NACE)

Our Salinity Classification system is based on seal color coding and custom color coding is available if requested

Gold = 5,000 PPM Silver = 10,000 PPM Blue = 25,000 PPM
 Green = 50,000 PPM Red = 100,000 PPM

Packaged in boxes of 100

Box of 100

Cat No.	Description (100/ Box)	Application	Salinity
ZAPI	Sulfate Reducing Bacteria SRB (API RP 38)	Anaerobic	Variable
ZAPIS	Sulfate Reducing Bacteria SRB (API RP 38) Stripper	Anaerobic	Variable
ZPGB-0	SRB (Postgate "B")	Anaerobic	0
ZPRA	Acid Producer (Phenol Red Dextrose)	Anaerobic & Aerobic	Variable
ZTHA	Thioglycollate Broth	Anaerobic	Variable
ZNBO	Aerobic Nutrient Broth	Aerobic	Variable
ZTRA-8.7	Transport Broth (Phosphate Buffered Saline)	Anaerobic	8700
ZTRO-8.7	Transport Broth (Phosphate Buffered Saline)	Aerobic	8700
ZSY-100	Syringes With Needle (3mL)	Injection	

We also prepare custom formulations as well as custom salinities.

When ordering please mention the salinity required by attaching the correct number to the end of our catalog number.
 (E.G. SRB Medium 25,000 PPM --> ZAPI-25)
